

MP CLEANER

MP CLEANER is designed for use in:

- Automatic Floor Scrubbers
- Pressure washers
- Mop buckets
- Hand held sprayers or trigger spray bottles
- Machinery or vehicle chassis cleaning operations

FBWO MP CLEANER is a biodegradable, water-soluble cleaner formulated with an exceptional mild yet tough multi-component surfactant system designed to achieve superior cleaning and degreasing capabilities. This is one of our most effective and versatile detergent blends, it is safe for use on all surfaces. The combination of ingredients allows for the effective breaking of surface tension between oily dirt and the surface being cleaned. It also has been formulated with an anti-slip additive for use in floor scrubbers.

This detergent formulation has proven superior cleaning characteristics when compared to many of the direct buy or big-box store "simple" type detergents. The SDS information shows a very safe detergent that is worker friendly, while exhibiting strong cleaning power.

FBWO MP CLEANER is designed to remove:

- Tapping oils or Stamping Process Fluids
- Hi-Lo tire marks
- Compacted or embedded dirt, oil, and grease
- Synthetic lubricants and ATF
- Machining coolants and Hydraulic oils
- Carbon and Graphite materials from hard surfaces
- Ink and marker residue from a variety of surfaces

Normal mixture rate with either hot or cold water

Application	Floor Scrubber	Mop Bucket	Pressure Washer
Water	25-30 parts	10 parts	20-25 parts
Concentration	3-4%	10%	4-5%
Make One Gallon	4-5 oz.	12 oz.	5-6 oz.

AVAILABLE PACKAGING:

5 gallon pails, 55 gallon drums or 220 gallon bulk totes
